September 26, 1996

To Whom It May Concern:

This is to certify that our kosher supervisor inspected the Rubicon, Inc. plant in Geismar, Louisiana on September 18, 1997 and the ICI Klea plant in St. Gabriel, Louisiana on September 18, 1997. We hereby certify that Hydrochloric Acid Solution produced at the abovementioned plants and sold by Reagent Chemical, Middlesex, New Jersey, and Houston, Texas, are kosher and pareve and may be used all year round.

Please be advised that this product must be transported on the attached list of Reagent railcars.

This certification is valid through September, 1998, and is subject to renewal at that time.

Sincerely,

 Rabbi Joseph Radinsky
